## October 2021 – SeaView MOBILE Is Here!

Ocean Imaging's SeaView Fishing<sup>®</sup> service has released its new satellite fishing service in an app – SeaView Mobile<sup>®</sup>. The pioneer in satellite oceanography, Ocean Imaging, has been providing oceanographic and weather information to fishers and scientific researchers since 1983. Now our powerful **worldwide SeaView fish finding service** has gone mobile! SeaView Mobile<sup>®</sup> delivers ready-to-use oceanographic analysis products including cloud-free sea surface temperature (SST) imagery, more single-satellite-overpass SST data than anyone, the highest resolution SST and chlorophyll imagery as well as sea surface height anomaly, ocean currents and much more! All to save you fuel, time and money while helping improve your fishing strategy right from your mobile device. The time-tested, most accurate SeaView Fishing data is now at your fingertips. SeaView Mobile<sup>®</sup> for Android 10+ can be downloaded from the [Google Play Store](https://play.google.com/store/apps/details?id=com.oceani.seaviewmobile). SeaView Mobile for Apple/iPhones is coming to the Apple Store very soon! For more information visit <https://www.seaviewfishing.com/AboutSVMOBILE.html>
